

PLAN Automation Celebrates 10th Anniversary

Orangeville, ON - 2019 marks the 10th Anniversary for PLAN Automation as the most progressive and customer-driven automation distribution organization in Canada. As Canada's only national source for quality packaging automation solutions, PLAN Automation can provide customers with all the equipment needed for their automation projects through our base of extensive and market-proven supplier resources. With offices located all across Canada, our veteran team of Technical Sales professionals have been providing quality, cost effective and service-based automation solutions that transform modern manufacturing operations. Product inspection, general automation, and complete turnkey line-integration services are all available from PLAN Automation and Banding Systems Canada.
